

## Domestic replacement of the original import effect evaluation

Utmost Fluid Control Technology Co., Ltd. In 2015: Yankuang Guohong Chemical Co., Ltd., produced a steam vent control valve operating stably since the driving operation, eliminating the problems of large vibration and large noise in the previous use of imported brands. Utmost steam vent valve has operated continuously without accident, and its comprehensive performance is comparable to imported high-end brand products, making an outstanding contribution to the long-term stable production of our company.
